

# Project Description

---

**Client:** Broome Community College

**Project:** Facilities Master Plan

## **Services Performed:**

While serving as Assistant to the Vice-President for Administration, James Kent prepared Broome Community College's first facilities master plan. The plan detailed campus improvements including a new \$8 million applied technology building, an addition to the Science Building, renovations to many of the existing buildings, site improvements including parking expansion and reorganization, and creation of a new student quadrangle. The total cost of these improvements exceeded \$12 million. Implementation of this project is complete.
