

Client: Town of Salina

Project: 7th North Street/Electronics Parkway Corridor Study

Services Performed:

While with another firm, James Kent managed the examination of the 7th North Street and Electronics Parkway corridors. The study examined land use, zoning, aesthetics, and access management. The study recommended rezoning the 7th North Street/Buckle Road character area; adopting a new access management ordinance, preparation of design guidelines geared toward commercial use areas, and streetscaping improvements.
