

Project Description

Client: US Army Corps of Engineers, European Div.

Project: Vicenza (Italy) Military Community Master Plan

Services Performed:

While with another firm, James Kent managed the preparation of a master plan for the Vicenza Military Community in northern Italy. The plan addressed mapping, programming, and the future space needs of eight separate NATO installations – the largest being Camp Ederle in northern Italy. Installation Design Guidelines were prepared for Camp Ederle and Villagio - the military community housing complex. *The Design Guidelines were awarded for Excellence in Planning and Research by the American Society of Landscape Architects.*
